

## The University of Chicago Surgical Training and Assessment Tool

Welcome to the University of Chicago Surgical Training & Assessment Tool (“Stat”). This is the demonstration site only. Multiple users are able to enter data into it; all data entered is make-believe. If system appears suitable, a genuine site can be generated for dedicated use by your institution.

### **Instructions for trial are as follows:**

1. Here is the link for the site: HYPERLINK <https://cci.uchicago.edu/stat-demo/>
2. Site will ask for username and for password:
  - a. Decide the role in which you wish to log in (either “attending” or “trainee”)
  - b. Pick one of these user id’s for the role you chose:

Trainee	Attending
acooper	acolles
bbigelow	barnard
blalock	cushing
cbailey	dharken
cmayo	fbanting
dlarrey	fogarty
dmelrose	halsted
fred	jfinney
ftrend	lewis
garret	maltz
george	paget
hboer	slava
hgillies	victor
jhunter	wcowper
lars	wilms
lcourv	wimc
mcdownell	
mcindoe	
mdbak	
percy	
ramstedt	
robb	
tbill	
thomas	
tkocher	
walt	

- c. Enter a password: The password for all users is "**pass**".

**\*\*Whenever you want to log in as a different user, you must quit your browser application (not just close the window) and start again.\*\***

3. Having logged in, use the tree menu to select a specific procedure; enter a date for when procedure occurred, and enter a name or ID of the other person with whom you operated (if

you are an attending, pick an ID from the trainee list above, and visa-versa).

4. Click "Proceed."

5. Make your assessment of the educational element of the case. Note that the sections for general qualities and for elements specific to any given case expand into greater detail and can be assessed at any level. At a minimum, you have to make a click per section.

a. "General" & case specific entries as described above.

b. The "Remarks" section is optional; it preserves any observations you wish to make.

c. Conclude with a summative grade under "overall case assessment."

6. Click "Submit."

10. To examine one's personal results and to conduct a progress review, click "Results" on the taskbar.

a. In an operating system, we try to do a progress review with both trainee & attending present, once every two weeks.

b. Trainee data for the period is reviewed, an improvement plan for the trainee is agreed upon and entered into the dialogue box present, and the trainee signs the session by entering his/her password.

11. To examine results from a Program Director's perspective, log in as an attending and click on "Overview."

a. In an operating system, only the PD or his/her designate can view everyone's data in the "Results" section or view the "Overview" section; in this demo version, all attendings can.

This set of instructions is to get you started so you can develop a "feel" for the system. Note that there is a "Help" function in the upper right part of the screen. Please feel free to contact us with any questions or comments.
